

## Memorandum of Understanding

On 7 June 2014, in Bela-Bela, Limpopo Province, Special Olympics South Africa (SOSA) signed a Memorandum of Understanding (MOU) with the SA Federation for Mental Health (SAFMH) at Thusanang School for the Handicapped, with the objective of partnering at future activities and events for the benefit of individuals with intellectual disabilities.

The event was witnessed by SOSA Limpopo Provincial Coordinator Mr Samuel Maduwa, athlete leader/ Healthy heroine from Bela Bela Thusanang School, Refilwe Molotsi and by representatives from both the organizations, Igna Steyn Chief Executive Officer of SOSA and Bharti Partel the National Executive Director of SAFMH.

Refilwe said that, "It is awesome to sit here with you to sign this document. I know Mental Health and SOSA together will assist us even more."

The partnership between the parties is such that they will both use existing relationships, partnerships and resources to further activities and objectives they have both agreed on and most of all they will seek to increase awareness about individuals with intellectual disabilities.

On Monday 21 July 2014, Wanga Manyala (Sports Coordinator) and Igna Steyn (CEO SOSA) visited NCPPDSA in Edenvale to sign a memorandum of understanding which will promote cooperation between the two associations. Several staff members of NCPPDSA attended this major event and the document was signed by Mr John Malherbe.

We believe this MOU will seal a fruitful relationship between NCPPDSA Nappy Run and SOSA for the benefit of beneficiaries of both organisations.
